

# CANADIAN HYPERTENSION CONGRESS & YI FORUM

*The Changing Landscape of Hypertension*

Date: October 23-24 2023

Location: Hotel Omni Mont-Royal in Montreal

Abstract Booklet Number	Abstract Title	Poster Board No.
19	A new marker of idiopathic nephrotic syndrome relapse in children: working towards reducing prolonged proteinuria and hypercholesterolemia.	1
20	Community Pharmacy-based Hypertension Screening: May Measurement Month 2023 in AB, BC, NL	2
21	Hypoxia promotes extracellular vesicle release from renal proximal tubule epithelial cells.	3
22	Effort-Reward Imbalance at Work, Glycated Hemoglobin and Prediabetes Prevalence in a Prospective Cohort	4
23	Should we accept living kidney donors with preexisting hypertension? A systematic review and meta-analysis	5
24	Characterizing the parathyroid gland proteome in chronic kidney disease induced secondary hyperparathyroidism via imaging mass cytometry.	6
25	Estimated Versus Measured Aortic Stiffness: Implications Of Sex, Height, Chronic Kidney Disease And Diabetes	7
26	Cuff-based central blood pressure device accuracy according to the ARTERY Society consensus: A systematic review and meta-analysis	8
27	Psychosocial stressors at work and atrial fibrillation incidence: a 18-year prospective study.	9
28	Intermuscular adipose tissue is associated with coronary calcification in hemodialysis patients.	10
29	Hemolytic Uremic Syndrome In Multiple Myeloma Patient: Case Report	11
30	Effect Of Body Mass Index (Bmi) Trajectory On Risk Of Chronic Kidney Disease: Population-Based Cohort Study In Sweden	12
31	Incident hypertension in young adults with a modest eGFR reduction	13
32	T50 functional transition time is modified by high dietary phosphate and predicts vascular calcification in experimental CKD.	14
33	Assessment Of Arteries Stiffness, Hemodynamics And Wave Reflection In Upper And Lower Limbs Amputees: An In-Silico Study	15
34	Identifying pseudo-resistant hypertension and optimizing diuretic therapy for confirmed resistant cases in primary care	16
35	Sex Differences in Cognitive Impairment & Age-Dependent Hypertension in Sprague- Dawley Rats	17
36	Do health professionals talk about physical activity during pregnancy?	18
37	Optimization of the kinetic T50 assay to improve feasibility in experimental settings	19
38	Anti-Müllerian Hormone and Cardiovascular Risk in Males with Chronic Kidney Disease: Preliminary Findings from a Cross-Sectional Study	20

39	Long working hours and the increased coronary heart diseases incidence: 20-year prospective study of Canadian white-collar workers	<b>21</b>
40	Effects of Particle Maturity and Environmental pH in Calciprotein Particle-Bound Mineral Release	<b>22</b>
41	Prevalence and risk factors for hypertension in buea cameroon.	<b>23</b>
42	Assessing Arterial Stiffness in Hemodialysis Patients through Postural Variations	<b>24</b>
43	Fetuin-A retains its mineral chaperoning properties following exposure to lysosomal acidic environments	<b>25</b>
44	Knowledge, perception, and practice of Quebec health professionals regarding ambulatory and clinic blood pressure measurement methods	<b>26</b>
45	The Effects of Exercise Training in a Mouse Model of Intrauterine Growth Restriction	<b>27</b>
46	Are gender-related variables associated with blood pressure in individuals with polycystic ovary syndrome?	<b>28</b>
47	The Effect Of Slow Breathing On Hemodynamic Determinants Of Blood Pressure In Individuals With Polycystic Ovary Syndrome	<b>29</b>
48	Home blood pressure monitoring in subspecialty clinics: A needs assessment	<b>30</b>
49	ACE2 Receptor-Like Function in SARS-CoV-2-Induced Inflammation in Human Endothelial Cells	<b>31</b>
50	Mechanisms involved in the development of preeclampsia and the beneficial effects of the exercise in a mouse model of the disease; role of the inflammatory profile ant the renin-angiotensin system in adipose tissue.	<b>32</b>
51	The impact of gestational diabetes mellitus on maternal endothelial mitochondrial health	<b>33</b>
52	Blood Pressure Responses To The Cold Pressor Test In Individuals With Polycystic Ovary Syndrome	<b>34</b>
53	The association between serum testosterone levels and cardiovascular health with gender-affirming testosterone therapy use: a protocol.	<b>35</b>
55	Effect of Physical Activity (PA) on Placental Inflammatory factors in Tunisian women with Preeclampsia (PE)	<b>37</b>
56	Genetic Association between rs576416 SNP, NEDD4l gene and early onset essential hypertension in Caucasian females.	<b>38</b>
57	Risk of Target Organ Damage in Pediatric Chronic Kidney Disease Patients with Ambulatory Hypertension: A Systematic Review and Meta-Analysis	<b>39</b>
58	The Eye in Pregnancy Study: An Accounting of all Pregnant Participants.	<b>40</b>
59	Three-month human endothelin-1 endothelial overexpression up-regulated Khdrbs3 and caused Vegfa and Nrp2 alternative splicing in mesenteric arteries of male mice	<b>41</b>
60	Group-delivered interventions for lowering blood pressure in hypertension: systematic review and meta-analysis	<b>42</b>
61	Understanding Measurement of Postural Hypotension (UMPH) in English Primary Care Practices: a qualitative approach	<b>43</b>
63	Invasive validation of non-invasive aortic systolic blood pressure estimation methods in very elderly patients – Preliminary findings of the VALIDATE-VE study.	<b>44</b>
